Strangers on Country

Five different stories, each one based on actual happenings, tell the stories of Europeans landing on the strange, alien shores of Australia and their meetings with the Indigenous population. Each story is told from alternate points of view and is a mix of fact and fiction, supported by illustrations, maps and diagrams. As well as reading easily, this is a fascinating book and is an important resource for libraries.

Cookie and the Most Annoying Boy in the World

Cookie is a wonderful character - funny, silly, grumpy and proudly flawed. The book is a joy to read and will appeal to Wimpy Kid lovers and kids looking for something refreshingly different. There is a distinct science theme running through the book and it is the first in a new series.
