Partner with the digital market leader, Australia's largest distributor of digital textbooks for secondary schools. We are experts in digital and have helped hundreds of schools implement a unique digital solution that works for them.

Exclusive Campion MyConnect platform

Through a **single portal**, students and teachers can access **thousands of flat, interactive and online digital resources** from the **largest range of publishers** in Australia, as well as subscriptions to online learning programs.

Access interactive resources in one place

All the popular **interactive online resources** are **accessible in MyConnect** including Pearson, Nelson Cengage, Oxford, Cambridge, Macmillan and more.

Integrate with your school's LMS

Campion MyConnect integrates with the major Learning Management Systems (LMS), so your students can **access all their digital content using the same system you've always used.**

We do the set-up work for you

Campion Education's **first-to-market provisioning service** allows us to create student accounts and allocate all their digital products, which can then be accessed with a single username and password.

We have **industry-leading expertise** and **extensive experience** in setting up large volumes of students with provisioning services.

Login once with True Single Sign-on

Some systems use one username and password, but you still need to enter your credentials multiple times.

Our **true SSO system**, simplifies access to your students' digital content. Students enter their school network username and password **just once**, and they have ongoing access to content anytime and all in one place. **No more remembering multiple usernames and passwords to login to multiple systems.**

Students easily & instantly access digital

Access codes for digital resources are emailed to students, instead of printed on small cards, that can often get misplaced.

Access codes can also be **provided to the school in a secure database**, or **re-emailed to the parent or student** by logging in to Campion Education's Online Ordering system.

Keeping your students' data safe is critical

Secure, fully encrypted end-to-end systems protect your student and teacher data.

The **first-to-market Campion Secure Connect system**, securely and automatically extracts subject changes from students daily to ensure students have instant access to relevant eTexts.

Our **stringent privacy policies** are in line with the General Data Protection Regulation (GDPR) and the Notifiable Data Breach Privacy Act.
