CAMPION myConnect2

SIMPLICITY. CONNECTIVITY. SECURITY.

Imagine this! No more publisher access code problems. It's all there on day one for every student and teacher.

The heart of Campion's digital ecosystem is the textbook and digital resource platform, MyConnect2. All your educational resources are in one place. Seamless and secure access to the digital resources and textbooks your students and teachers need. Suitable for schools that supply resources as a class set / book hire, or students who purchase online for individual access.

How it works:

Login once: Campion MyConnect2 provides a true SSO system to simplify access to content and connect you directly with your school content. No more passwords, no more confusion! Seamlessly integrate with publisher platforms and content at the click of a button. Campion's digital ecosystem integrates with the major Learning Management Systems and Google Classroom.

Easy to use: Organise your bookshelf how you want and receive direct notifications. Navigate to individual pages, view your textbook in your preferred format and search for what you need. Pick up where you left or bookmark a particular section, with syncing across all your devices including iOS (iPhones and iPads), Windows and MacOS.

Accessibility: World-class accessibility tools enable better access to learning for EAL students and those with learning difficulties such as dyslexia, or vision impairment. Read Aloud, translations in 120 languages and more.

Collaborate: Draw, highlight, RichText Notes. Annotations let you enhance your lesson plans and make it easier for students to engage with learning materials. Upload, embed or deep-link to your own content to enhance your resources and lesson plans.

myconnect2

Work anywhere: Download and work offline, anywhere, across multiple devices. BYOD fully supported.

Reporting: Access to a real-time "payment portal" gives you live reporting of student orders and access.

Automated Timetabling: Integration with all major Timetabling programs. Our state-of-the-art system automatically assigns the resources each student needs for their chosen subjects. Subject changes and new students are automated.

Safe and Secure: World-class security with encrypted data, stringent adherence to privacy requirements and secure data storage.

Widest Range of Resources in Australia: Our network of supply means we can source everything you need, including e-textbooks, interactive and digital resources, novels and plays, workbooks, school-customised items – all within your portal.

Personalised School Portal: Customise your school portal with your school branding & logo – so students and staff know where they are.
Trial Tab: Find textbooks from across a range of publishers, including brand new and not-yet-published titles. Perfect for reviewing new publications, or giving textbook access to a supply teacher, so the learning doesn't slow down while the usual staff member is away.

Need help? Access our in-app for support and connect directly to a digital expert.
